

360 Southwest

Support Co-ordination Services

SUPPORT CO-ORDINATION

360 Southwest Support Coordinators are dedicated to helping participants understand their plan, connect with NDIS providers, manage service delivery tasks, live more independently and be included in their communities.

A strong trustworthy relationship with their Support Coordinator can increase a participant's confidence and skills to manage their plan independently.

LEVEL 2 SUPPORT CO-ORDINATION

At 360 Southwest, Level 2 Support Co-Ordination is a crucial service provided to NDIS participants. This level of support coordination focuses on assisting participants understand and implement their NDIS plans effectively. Our experienced support coordinators work closely with participants to identify their unique needs, goals, and aspirations. They assist in connecting participants with the appropriate service providers and coordinating services. 360 Southwest support coordination services are designed to empower individuals with disabilities, enabling them to navigate the NDIS system with confidence and access the supports they need to thrive. Through their person-centred approach, expertise, and dedication, 360 SW strives to make a positive impact on the lives of our clients, helping them achieve their goals and live their best lives

LEVEL 3 SUPPORT CO-ORDINATION

360 Southwest offers Level 3 Support Co-Ordination which is specialised support coordination tailored to individuals with complex needs or high-level support requirements. This level of support coordination provides comprehensive assistance to participants who require additional support in managing their NDIS plans and accessing the right services. Our highly skilled support coordinators collaborate closely with the participant, their families, service providers, and other relevant stakeholders to develop and implement a strategic plan. This plan focuses on optimising the participant's support network, ensuring effective service delivery, and addressing any challenges or barriers that may arise. Support Coordination Level Three aims to enhance the participant's independence, choice, and control over their supports, while also promoting their overall well-being and quality of life.
